## MARIE MARTIN

Stemming from a passion for virtually everything having to do with the world of interiors, this collection arose from the desire to unite the love for antiques, for Paris, for colour and fully decorated spaces. Abundant attention to detail, lush materials such as bronze, silk, velvet, brocade and crystal as well as clashing colour schemes construct an extravagant universe where happiness is key. With an adventurous mind, free and without reservation, we aim to make any interior, your world, a better and cheerful place. By not shying away from bold and unconventional choices, this collection appeals to the brave and light-hearted, rather than the faint-hearted. An outburst of prints, colours, gold and accessories embody a revival of the French boudoir, exuding a vibrant extravaganza. This fearlessly authentic style drenched with positivity and frivolity dares one to be different, to be classy yet sassy.

Marie Martin is a collaboration between Marielle de Graaf-Blok and Martin de Boer, two interior designers with an unbridled enthusiasm for antiques, artistic skill and decoration galore. The finest antique pieces are searched for, found and restored, often re-gilded or patinated. Beautifully shaped ornaments are being turned into the most elegant lamps. In our point of view, our collection, and any interior for that matter, is only fully completed when a perfect mix and match is established. Coordinating colour pallets, not simply placing objects but truly synchronizing all objects in an enchanting, startling composition.

It would therefore be our ultimate dream to furnish a hotel from top to bottom in Marie Martin style, with a classic heart and fearless soul in perfect sync.

## 10 COMMANDMENTS

### 1) Each space should have at least one antique piece

We love truly beautiful items, antique pieces that stood the test of time, having a history of their own. Offering the great opportunity to leave your personal touch, the unique and original past of these pieces add character to your interior.

### 2) Apply at least 3 beautiful and contemporary colours

Colour embodies liveliness, it provides an identity, brings warmth and is never boring. The reinforcing mixture of antique and vintage pieces with fresh colours ensures a bold and exciting mix.

### 3) Splurge on gold

Luxury without gold is absolutely unthinkable. With its glamour and radiance it is no wonder gold is considered the richest metal since time immemorial. Our craving for gold knows no boundaries which blatantly shows through our collection.

### 4) A mix of styles is key

Cut that red thread and stir things up by mixing different styles, creating an interesting, personal style. Vintage combined with baroque, atypical yet complementary, makes for an intriguing and pleasant tension.

### 5) Add a leopard print for a bit of extravaganza

Animal prints are often associated with luxury and decadency. Our all-time favorite leopard print is an ideal tool in creating a big and bold statement.

### 6) Do not take things too seriously

Perfection is not interesting. Rather than impeccably matching everything, just improvise and endeavor. A variety of prints and colours, fabrics and wallpapers add up to a splash of joyful uniqueness.

### 7) Always bear in mind: “Less is Bore”

A fully decorated interior suggests richness. Walking through feels like a journey with new things to discover in every corner. Channel your inner explorer by creating a distinctive, extravagant and playful world of wonder.

### 8) Add cosiness with soft furnishings

Fabric such as our favourite velvet is rich, soft and oozes comfort. Cushions serve as an ideal tool for an easy update of the look of any interior. Poufs, both practical and elegant, complement your living space with a touch of luxury. Yet, possibly the most defining amongst the furnishings are curtains. Cosy and mood-enhancing these have the great capacity to create a warm intimacy.

### 9) Let there be fringes everywhere

On shades. On curtains. On cushions. Fringes make everything even prettier and undoubtedly more cheerful. The embellishment generates a rich look showing a keen eye for detail. Even such small refinement can create a complete new look.

### 10) Never leave your walls “undressed”

The aesthetic excellence, feel of luxury and vividness that can be achieved with wallpaper is inimitable. Antique boisserie and carved panelling as well as fabric upholstered walls paired with space enlarging mirrors whisper the grandeur of castle life.

## CHAPTER FLOOR LIGHTING

### Workshop, craft and shades

*One of our most important assets is the painting studio, as we call “the workshop”. It is from here we transform simple metal, wood and ceramic to become one of our exquisite finished pieces. Over the decades we have created scores of new and elaborate techniques that include a lot of different golden colours. Each new collection challenges us to create new finishes, from convincingly resembling aged plaster to perfecting the patina of a real antique piece.*

Every base comes with its own unique shade, our personal recommendation. Nonetheless, you can also customize your shades' shape, colour, trimming and fringes. We will always make sure the quality is exquisite. Every shade is made by hand, one by one, in our shade studio.

## CREATE YOUR OWN LAMP SHADE

Since 1964, all of our shades are being made by hand in our very own lamp shade studio. With tons of experience and the utmost attention to detail, our highly skilled women create unique shades that embody quality and craftsmanship.

Shades are made to order leaving the unique opportunity for customization.

Not only the size of the shade, but also the fabric and trimming can be tailored according to your very own wishes. With our wide range of fabrics and decorative trimmings, we have all tools available to make the perfect shade for you.

Personally, we go absolutely mad for fringes, feathers and refined trimmings and believe these make everything prettier and undoubtedly more cheerful. Shade embellishment surely creates a complete new and rich look, showing a keen and personal eye for detail.

With our craftsmanship on the one and our creative originality on the other hand, we are your go-to address for one-of-a-kind lamp shades.

We are always happy to think along to create the right look for you!
